

Bulan 7: Enterprise & Industry Projects

Minggu 1: Healthcare & Medical Systems

Hari 1: Patient Management System

Project: MedFlow

- Deskripsi: Hospital patient management dengan EHR
- Fitur: Patient records, appointments, medical history, prescriptions
- Keunikan: HIPAA compliance features, emergency alerts

Hari 2: Telemedicine Platform

Project: DocConnect

- Deskripsi: Virtual consultation platform dengan video
- Fitur: Doctor scheduling, video calls, e-prescriptions, chat
- Keunikan: AI symptom checker, queue management

Hari 3: Laboratory Information System

Project: LabTrack

- Deskripsi: Lab test management dan result tracking
- Fitur: Test orders, sample tracking, result entry, reports
- Keunikan: Barcode integration, abnormal value alerts

Hari 4: Pharmacy Management

Project: PharmaCare

- Deskripsi: Pharmacy inventory dan prescription system
- Fitur: Drug inventory, prescription processing, interaction checker
- Keunikan: Automated reorder points, expiry tracking

Hari 5: Medical Billing System

Project: BillMed

- Deskripsi: Healthcare billing dengan insurance claims

- Fitur: Invoice generation, insurance processing, payment tracking
- Keunikan: ICD-10 coding support, claim status tracking

Hari 6: Fitness & Wellness Tracker

Project: FitLife

- Deskripsi: Health tracking dengan wearable integration
- Fitur: Activity tracking, nutrition, sleep, goals
- Keunikan: AI-powered health insights, social challenges

Hari 7: Mental Health Platform

Project: MindCare

- Deskripsi: Mental health support dengan therapy booking
- Fitur: Therapist matching, journaling, mood tracking, resources
- Keunikan: Crisis hotline integration, anonymous forums

Minggu 2: E-Commerce & Retail

Hari 8: Multi-Vendor Marketplace

Project: MarketHub

- Deskripsi: Marketplace dengan seller onboarding
- Fitur: Vendor dashboard, commission system, dispute resolution
- Keunikan: Automated vendor verification, dropshipping support

Hari 9: Subscription Box Service

Project: BoxMonthly

- Deskripsi: Curated subscription box platform
- Fitur: Subscription plans, curation algorithm, shipping automation
- Keunikan: Personalization quiz, box customization

Hari 10: Auction Platform

Project: BidWin

- Deskripsi: Online auction dengan real-time bidding

- Fitur: Timed auctions, auto-bidding, escrow, ratings
- Keunikan: Anti-sniping extension, bid history analytics

Hari 11: Digital Goods Store

Project: DigitalVault

- Deskripsi: Digital product marketplace (ebooks, courses, software)
- Fitur: Instant delivery, license management, affiliate system
- Keunikan: DRM protection, version updates for buyers

Hari 12: Fashion Rental Service

Project: RentStyle

- Deskripsi: Clothing rental platform dengan logistics
- Fitur: Inventory management, size recommendations, return tracking
- Keunikan: AR try-on simulation, damage assessment

Hari 13: B2B Procurement Platform

Project: ProcurePro

- Deskripsi: Enterprise procurement dengan approval workflows
- Fitur: RFQ management, vendor comparison, contract management
- Keunikan: Spend analytics, automated PO generation

Hari 14: Loyalty & Rewards System

Project: RewardCircle

- Deskripsi: Customer loyalty program platform
- Fitur: Points system, tiered rewards, referral program
- Keunikan: Gamification mechanics, partner network

Minggu 3: Education & Professional Development

Hari 15: School Management System

Project: EduAdmin

- Deskripsi: Complete school administration platform
- Fitur: Student records, attendance, grades, timetable, fees
- Keunikan: Parent portal, bus tracking, library integration

Hari 16: Online Examination System

Project: ExamPro

- Deskripsi: Secure online exam platform
- Fitur: Question banks, randomization, proctoring, auto-grading
- Keunikan: Browser lockdown, plagiarism detection

Hari 17: Learning Management System

Project: LearnHub

- Deskripsi: Corporate training platform
- Fitur: Course authoring, SCORM support, certifications, analytics
- Keunikan: Skill gap analysis, learning paths

Hari 18: Tutoring Marketplace

Project: TutorMatch

- Deskripsi: Platform connecting tutors with students
- Fitur: Tutor profiles, scheduling, payment escrow, reviews
- Keunikan: AI tutor matching, progress tracking

Hari 19: Research Paper Repository

Project: ScholarHub

- Deskripsi: Academic paper repository dengan citation tracking
- Fitur: Paper submission, peer review, citation metrics
- Keunikan: Plagiarism check, collaboration tools

Hari 20: Skill Assessment Platform

Project: SkillTest

- Deskripsi: Technical assessment untuk recruitment

- Fitur: Coding challenges, MCQs, video interviews, reports
- Keunikan: IDE integration, code playback

Hari 21: Language Learning App

Project: LinguaLearn

- Deskripsi: Interactive language learning platform
- Fitur: Lessons, exercises, speech recognition, flashcards
- Keunikan: Adaptive difficulty, conversation practice with AI

Minggu 4: Fintech & Business

Hari 22: Digital Banking System

Project: NeoBan

- Deskripsi: Digital bank core system
- Fitur: Accounts, transactions, transfers, statements
- Keunikan: Virtual cards, savings goals, spending insights

Hari 23: Investment Platform

Project: InvestWise

- Deskripsi: Stock trading dan portfolio management
- Fitur: Real-time quotes, buy/sell orders, portfolio tracking
- Keunikan: Robo-advisor, fractional shares

Hari 24: Crowdfunding Platform

Project: FundDreams

- Deskripsi: Reward-based crowdfunding
- Fitur: Campaign creation, pledges, updates, fulfillment
- Keunikan: Milestone-based funding, backer rewards tiers

Hari 25: Invoice & Billing System

Project: InvoiceFlow

- Deskripsi: Invoice management untuk freelancers/SMEs

- Fitur: Invoice creation, payment tracking, reminders, reports
- Keunikan: Multi-currency, recurring invoices, expense tracking

Hari 26: CRM System

Project: SalesPro

- Deskripsi: Customer relationship management
- Fitur: Contact management, pipeline, email integration, reports
- Keunikan: Lead scoring, automated workflows, mobile app

Hari 27: HR Management System

Project: PeopleHub

- Deskripsi: Human resources management platform
- Fitur: Employee records, leave management, payroll, performance
- Keunikan: Org chart, onboarding workflows, exit interviews

Hari 28: Project Management Tool

Project: TaskFlow

- Deskripsi: Agile project management (Jira alternative)
- Fitur: Boards, sprints, backlog, time tracking, reports
- Keunikan: Gantt charts, resource allocation, dependencies

Hari 29-30: Industry Integration Project

Project: ERPLite

- Deskripsi: Lightweight ERP system untuk SME
- Fitur: Inventory, sales, purchasing, accounting, CRM, HR modules, reporting, multi-location, user roles
- Keunikan: Modular architecture, API-first design, mobile responsive, real-time dashboard
- Scope: 2 hari untuk integrated business management system
